

# The Territory Government is targeting problem drinkers to turn them 'off tap' and mandate treatment to stop the violence.

60 per cent of all assaults are alcohol related.\*

## From 1 July the Banned Drinker Register will help enforce Problem Drinker Bans Territory-wide.

- New Problem Drinker Bans — people taken into protective custody three times in three months, or who commit alcohol-related crime and violence
- New Mandatory Treatment and Rehabilitation Orders — with more treatment options across the NT
- New Banned Drinker Register to record Banned Problem Drinkers

## Banned Drinker Register — scanning photo ID for take-away alcohol.

- Your photo ID will be scanned against the Register – it's a quick scan
- No information about you or your purchase will be recorded
- If you're not banned, you buy your alcohol as normal
- These changes will not affect the price of alcohol
- It's a small inconvenience to help cut crime

**If you're a Banned Drinker you will be banned everywhere across the Territory**

**If you're a Banned Drinker it will be illegal for you to buy, possess or consume alcohol**

**If you knowingly supply alcohol to a Banned Drinker you can be banned too**

### Acceptable forms of ID

✓ NT or other Australian Drivers Licence

✓ Passport

✓ Evidence of Age Card

✓ NT Ochre Card

### Getting the right ID

You can obtain an Evidence of Age Card or a Drivers Licence by visiting your local Motor Vehicle Registry.

### Supply Restrictions in Alice Springs

Product and trading hour restrictions exist in Alice Springs under the local Alcohol Management Plan, e.g. a limit of one cask wine purchase per day.

To enforce the restrictions, an Alcohol Restrictions Monitoring System records purchase details of restricted products until midnight on the day of purchase.

This system is different to the Banned Drinker Register, which does not record information.
